

**15 – 18 November 2016**  
Goudini Spa, Western Cape

**H3D!**

PIONEERING WORLD-CLASS  
DRUG DISCOVERY IN AFRICA

**Malaria, Tuberculosis and Neglected Tropical Diseases: Progress in Drug Discovery and Development**

## Invitation to the Trade

### Overview

The 3rd H3D Symposium to be held in Africa, the second to be held in the Western Cape, this time at Goudini Spa near Worcester. Goudini Spa, surrounded by iconic Cape vineyards and beautiful mountain scenery, is a uniquely South African resort, featuring several geothermal and cool pools.

The organizing committee is currently encouraging participation in the symposium by drug discovery scientists from Africa, as well from all over the globe, who are working on the discovery of drugs to combat Tuberculosis (TB), Malaria and a host of Neglected Tropical Diseases. The theme of this third H3D symposium is *Malaria, Tuberculosis and Neglected Tropical Diseases: Progress in Drug Discovery and Development*.

Through this symposium we aim to ensure that TB, Malaria and Neglected Tropical Diseases, all highly infectious and deleterious and primarily affecting the African population, will receive worldwide attention in both scientific and non-scientific arenas; I urge you to consider participating and making the most of this opportunity.

### Topics to be covered include:

- Malaria Drug Discovery
- Tuberculosis Drug Discovery
- Neglected Tropical
- Diseases Drug Discovery
- Drug Resistance
- Pharmacogenomics
- Drug Safety

### We are pleased to have already confirmed the following speakers

**Clif Barry** – National Institute of Allergy and Infectious Diseases, USA

**Graeme Bilbe** – Drugs for Neglected Diseases Initiative, Switzerland

**Lyn-Marie Birkholtz** – University of Pretoria, South Africa
